

Take control of your Fax Broadcasting: Easier and Cheaper

Our Web-based Fax Broadcasting service offers you totally automated, self-serve Web Faxing - via our fax servers.

Easy to setup & use! You can broadcast faxes starting today! Use...

- ... any PC running Windows
- ... with any internet connection - anywhere
- ... to submit, proof and launch fax broadcasts
- ... to any number of faxes: to one fax recipient - or to a list of faxes.

No software, hardware or phone lines needed !

Our service will simplify your job immensely, *if you are currently...*

- ... broadcasting to your list from a 'Fax machine', or
- ... broadcasting via desktop faxing software, or
- ... using a vendor that needs you to email the document and list to them (then you have to approve a proof, then wait for them to launch the job)

With our Web-based service, there's no waiting !

After you upload your list and document, your PC and internet connection are not needed. All fax images are built on our servers, then your document will be broadcast to your list of fax numbers using our digital phone lines.

Plus we assign a personal representative to you, to help make your learning curve short and painless!

Our customers say it best:

"Thank you. You have made this a pain-free and easy system to implement. I can't imagine using our old system at this point!"

- J.C., Chicago

Web-based Fax Broadcasting gives you virtually unlimited outbound faxing capabilities without any investment.

- There is NO hardware or software to install or learn.
 - You can submit, proof, launch and review fax jobs on the Web 24/7.
 - Perfect for any fax broadcasting application of any volume...
 - ... from a 1-page document faxed to 1 recipient,
 - ... to multi-page documents faxed to thousands of recipients.
 - We cater to small businesses, including ...
 - ... associations that need to fax hundreds or thousands of pages,
 - ... the SO/HO that faxes hundreds of pages per month, and
 - ... legal offices that fax large, multi-page documents.
 - Our multiple fax servers broadcast low- and high-volume jobs quickly.
-

Web-based Fax Broadcasting is Reliable and Robust

- Easily MERGE data from your fax list onto your document.
 - We support MERGING onto multiple file types (PDF, Word, etc.)
 - You may schedule your jobs in advance of the launch time.
 - Your broadcasts reliably run when you want them to - on demand.
 - View job status on the Web, and automatically receive emailed reports.
 - Review fax reports online.
 - Fastest fax reporting in the industry - with 100% accountability.
-

100% automated Opt-Out capture & suppression

- We provide you with a unique Toll-Free telephone number, with an Interactive Voice Response system to capture DoNotFax requests, 24/7.
 - You put the Toll-Free telephone number on your fax documents, in a statement offering recipients to Opt-Out of future fax broadcasts.
 - Any DoNotFax numbers submitted are automatically added to your unique DoNotFax list, which you have access to 24/7 via the Web.
 - Every time you submit a fax broadcast, all numbers in your DoNotFax list are automatically suppressed from broadcasting.
-

PLEASE NOTE: *You need to provide your own fax numbers: we do NOT aggregate, rent, sell or share fax numbers.*

If you're a Small Business, we're your Best Value:

- Lowest pricing for Small Business' typical fax volumes
- Easy-to-use Web system - No software to load or learn
- Personal, experienced customer care representative assigned to you - with toll-free, direct -dial, Live help! So you will be faxing on your own - but not alone!

We offer the Best customer support in the Fax industry.
